

COVID-19 Guidelines

In order to protect all of our health in the Covid-19 era, please follow the signs with information on preventive measures, paying particular attention to the use of a face mask in communal areas and keeping a distance of at least 1 meter from other people and the directions of the entrance and exit areas.

Reception

Body temperature can be measured and access is denied at temperatures above 37.5°C. To avoid queues and crowds, we recommend that only one person per family enters the reception at a distance of 1 meter. It is compulsory to wear a face mask and to use the disinfectants provided.

Pitches

The dimensions of the pitches guarantee the prescribed distance of 3 metres to the entrances of the neighbours. It is recommended to clean and disinfect both outdoor and indoor furniture regularly.

Bungalows

The bungalows are completely autonomous and separated from each other. At each change, the premises and the air conditioning system are thoroughly cleaned with disinfectants.

Washrooms

Please follow the signs with information on preventive measures and pay attention to the directions of the entrance and exit areas. Dispensers with disinfectant solutions for hand hygiene are available at the entrances to the washrooms. Inside the washrooms, it is mandatory to wear a face mask and to keep a distance of at least 1 meter from other people. Group formation in the corridors and in the washing and dishwashing areas is to be avoided. The washrooms are cleaned by the staff several times a day using disinfectants and specific procedures in accordance with official regulations.

Grocery Store

The body temperature can be determined, which prevents access if the temperature exceeds 37.5°C. To avoid queues and crowds, access is allowed in an orderly and quota-controlled manner. You can enter with a face mask and by keeping a distance of 1 meter. Hydroalcoholic solutions are available for frequent hand hygiene.

Bar-Restaurant

Body temperature can be measured and access is denied at temperatures above 37.5°C. A face mask is required, but can be removed at the table. Disinfectants are available both outside and inside the rooms for hand disinfection. Table reservation is recommended. The prescribed distance of at least 1 metre between guests on the terrace must be observed.

Beach and Island

Also on the beach it is obligatory to keep a distance of at least 1 meter and 1,5 meters between sun beds, deck chairs and chairs. Group gatherings and group sports activities are prohibited. Supervision of children is obligatory. Individual sports on the beach or in the water are permitted, provided that the appropriate distance rules are observed. At the landing dock of the island the distances must be observed and accumulations must be avoided.

Playground

The playground area is accessible, parents are obliged to supervise their children so that a distance of 1 metre is maintained. Parents and children over 6 years of age must wear a face mask. The playground area is disinfected daily.

Amusement Hall

The amusement hall remains closed.
